dinner and eventually spend the whole evening. From this, Burger & Lobster (B&L) was born in the heart of Cape Town's foodie central, Bree Street.

The Venue

Take in this vibrant location, steeped in heritage and style. Indulge in our exclusive cocktails, tailor-made to the menu.

Emphasis was placed on quality and attention to detail from the outset. It is visible in all aspects of the establishment from the interior, branding, menu selection and ingredients used, to staff hired – every detail is of equal importance.

The B&L Interior creates a slick, New York style look and feel combined with natural elements reminiscent of where the restaurants' core ingredients come from.

Black steel, deep buttoned leather seating and an impressive bar is contrasted with raw wood, exposed brick and steel mesh with specialty lighting. The end result is a space that transcends easily as night falls from a trendy dinner spot to a vibrant and bustling bar ambience. With

some evenings dedicated to provide young, up and coming DJ's a platform to set the mood in the restaurant.

Food

At B&L, we believe in keeping it simple and doing it well. The menu was carefully built around three core items: The Whole Lobster, The B&L Burger and The Lobster Roll.

From the daily-baked brioche buns used for both the Burger and Lobster Roll; to the Burger patty made from three different prime cuts of steak that is grounded in a specific manner to ensure consistency in its flavour and texture; to the Lobster butter sauce infused with a rich delicate bisque-base made from scratch.

Supporting these three heroes are side dishes that show the same amount of thought and dedication. A fresh herb salad dressed to perfection with a white balsamic and mustard sauce served alongside delectable skinny fries ordered two-ways: regular or upgraded to its rich cousin dressed with truffle oil and parmesan cheese.

Joining these fine dishes is a list of new-generation style cocktails – developed specially for B&L in creative collaboration with Brent Perremore.
